

Short Title Catalogue Flanders (STCV)

The Short Title Catalogue Flanders is the online bibliography of the hand pressed books that appeared in Flanders before 1801. The database, which is freely accessible, contains c. 6,500 titles based on c. 12,000 copies and c. 5,000 digital reproductions of title pages. Both the website and the database are available in three languages: Dutch, French and English.

Until now the project focuses on seventeenth century books printed in Dutch, as well as in other languages (Latin, French, Spanish, etc.). From 2007 forward, eighteenth century books will be added to the database.

The project has grown out of collaboration between the Flemish research and heritage libraries:

- The University Library of the Universiteit Antwerpen
- The City Library of Antwerpen
- The University Library of the Katholieke Universiteit Leuven
- The University Library of the Universiteit Gent
- The City Archives of Mechelen
- The Archiepiscopal Archives of Mechelen
